

# Huge Savings on Schwartz Filter Sleeves

Schwartz offers high-quality Tuffly® material and a full line of complementary material filter tubes. Tuffly is a non-woven material that can remove silts and fine clay sediments without loss of flow rate. The excellent filtration helps to prevent sediment residue in bulk tanks and protects plate coolers. Filters are 3A and FDA-compliant.

## For 16" L Filters with 1", 1-1/2", and 2" Connections (4-7/8" x 13-1/2")
