

Delvotest P Mini Start-Up

Items you need to order for initial start-up:

233-3993 – Delvotest Block Heater	\$141.22
233-3006 – Delvotest P Mini Test kit (25 tests/kit)	\$41.77
233-3004 – Delvotest Positive Penicillin Control (6 bottles/box)	\$50.52
233-3005 – Delvotest Negative Control (6 bottles/box)	\$31.45
511-3340 –NJ Water Resistant Rotating Thermometer	\$24.11
498-3971 – 1.5ml Micro-tubes (bag of 100)	\$5.20
195-3803 – Freezer Thermometer (if you don't have one)	\$44.18
195-3804 – Refrigerator Thermometer (if you don't have one)	\$44.18

** Not all states require the negative control. Check with your state contact to confirm if you need to purchase it.

** The micro-tubes are used to freeze reconstituted controls until you need them.

Once your initial test kit is gone all you need to order is:

233-3006 – Delvotest P Mini Test kit (25 tests/kit)	\$41.77
Positive and negative controls as needed	

NOTES:

** The P mini test kits normally have 4-5 months shelf life when shipped. At the time of ordering ask Customer Service the current expiration dates to ensure that you will use all the tests before they expire.

** The P mini test kits are temperature sensitive and have to be shipped to arrive within 2 days and need to be refrigerated upon arrival.

** The P mini test kit cannot freeze. If they freeze the test will not work.
