Save up to 40% off list price now through November 13th.

Why CELLTREAT® Syringe Filters?

- Filters are molded in polypropylene housings, providing a reliable seal without the use of adhesives.
- Color-coded for easy identification.
- Sterile options are packed in easy, peel-to-open paper/plastic blister packs.
- Non-sterile syringe filters come bulk packed.
- Membrane materials available: Polyethersulfone (PES), Polyvinylidene Fluoride (PVDF), Nylon, Polytetrafluoroethylene (PTFE), Mixed Cellulose Ester (MCE), Glass Fiber (GF), Cellulose Acetate (CA), Surfactant Free Cellulose Acetate (SFCA).
