

Disinfectant Mat™ Inventory Blowout!

High-Wall™ Chlorine Resistant Disinfectant Mat™

Staying put isn't a problem. These heavy-duty mats have corrugated backs to prevent slipping out of place. Constructed from heavy-duty rubber, they stand up to heavy traffic, and the solid walls won't sag or allow solution to run out. Holds up to 22-quarts of sanitizing solution.

Clean and Sanitize. The full 2" height guarantees that sanitizing solution contacts the sole, sides, and welt area of footwear, penetrating into even deep treads. The flexing action of the rubber fingers removes dirt and matter—even if its caked in. Easy to use, simply empty, shake, rinse, and refill.

Stock #	Color	Unit	Sale Price
<i>32" x 39" x 2"D</i>			
430-2078	Red	EA	\$120.00/ea
430-2076	Blue	EA	\$120.00/ea
430-2007	Black w/ Yellow Stripe	EA	\$130.00/ea
430-2072	Orange	EA	\$120.00/ea

Low-Wall Disinfectant Mat™

One step beyond the ordinary sanitizing footbath, Disinfectant Mats both clean and sanitize footwear before workers enter food processing areas. While ordinary footbaths don't provide any scrubbing action to keep users from tracking sediment back into a clean processing environment, Disinfectant Mats feature hundreds of rubber fingers to clean dirt and particles from footwear. The finger design lets contaminants settle undisturbed, while the footwear contacts clean solution only. This unique double-action helps keep contamination from reaching food processing areas.

Holds up to 5-quarts of sanitizing solution.

Stock #	Description	Color	Unit	Sale Price
<i>24" x 32" x 7/8"D</i>				
430-2000	Low-Wall Chlorine Resistant	Black	EA	\$65.00/ea
430-2005	Low-Wall Standard	Black	EA	\$40.00/ea

Stop Contamination at the Door

Standard High-Wall™ Disinfectant Mat™

Staying put isn't a problem. These heavy-duty mats have corrugated backs to prevent slipping out of place. Constructed from heavy-duty rubber, they stand up to heavy traffic, and the solid walls won't sag or allow solution to run out. Holds up to 22-quarts of sanitizing solution.

Clean and Sanitize. The full 2" height guarantees that sanitizing solution contacts the sole, sides, and welt area of footwear, penetrating into even deep treads. The flexing action of the rubber fingers removes dirt and matter—even if its caked in. Easy to use, simply empty, shake, rinse, and refill.

Extra design features. For safety and compliance, the black mat features a ramp edge with a yellow stripe all around with the message "FOOTBATH USE REQUIRED". The interior corners allow for use of a simple hand pump to empty spent sanitizing solution without spilling on the floor.

Stock #	Color	Unit	Sale Price
430-2006	Black w/ Yellow Stripe	EA	\$70.00/ea

32" x 39" x 2"D

Disinfectant Mat Tips:

- Have enough Disinfectant Mats so that employees don't need to go out of their way to use one.
- Locate a mat at every entrance to processing areas.
- If employees are bypassing Disinfectant Mats, put several together or side-by-side to cover the whole entrance so they can't avoid them.
- All mats should have a SSOP (Sanitation Standard Operating Procedure) written for proper care and use.
