

Hygienic Dustpan

Series 5660

Strong, Sturdy Handle

Neck joint can withstand significant pressure

Generous Height

Large back wall holds collected debris securely

Sharp Rim Edge

Lays flat on surfaces for easy sweeping and collection

Large Tray Area

Substantial surface area for high capacity of debris collection

This is a dustpan that is ideal for collecting food debris from both floors and counters in areas where hygiene is essential. May be used in wet and dry environments.

Hygienic Dustpan

5660

Large capacity dustpan is ergonomically designed with a finger grip to prevent slipping from the user's hand. Works well in conjunction with Vikan's bench brush.

The Color-Coding System

Remco and Vikan® brands offer an integrated color-coding system to help mitigate the risk of cross-contamination in food processing facilities. With an array of color-coded tools and storage brackets, and years of experience building effective color-coding systems, the experts at Remco Products Corporation can help you effectively apply color-coding to divide and identify different zones or processing tasks. As a result, workers can more easily comply with material handling and hygienic cleaning procedures to maintain stringent food safety standards.

Please see the full-line catalog for a complete list of Remco™ and Vikan® products.
