

ADB0002-MH
SmartStep Sanitizing
unit w/ handle

HACCP **SmartStep**TM Footwear Sanitizing System

Reduce cross-contamination from footwear anywhere in your facility.

This foot-operated unit uses compressed air to deliver an atomized spray of **Alpet[®] D2 Surface Sanitizer**. Each application provides ample coverage to footwear soles, yet uses only 0.2 ounces of chemical which minimizes chemical waste and improves moisture control. Collection basin is easily accessed for cleaning.

Features:

- Atomized spray provides ample coverage to footwear soles while reducing chemical waste and controlling moisture
- Fresh Alpet D2 Surface Sanitizer with every application
- Compact footprint means you can place multiple units throughout your facility
- System can be tailored to meet your plant's specific needs

An effective tool for reducing cross-contamination from footwear in wet or dry processing facilities.
