

# PRODUCT INFORMATION

Item # 1563047

- Complies with ASTM Specification E960, Type I requirements
- Manufactured from borosilicate glass 3.3
- Thick, slightly flared, beaded top, with a spout designed to have excellent pouring characteristics
- Improved mechanical and thermal properties result from the uniform sidewall and bottom thickness design
- Suitable for use on a hotplate
- All sizes have a durable marking patch for use with an ordinary pencil
- Easy-to-read white graduations on all sizes from 20 to 4000 mL
- Ref: ASTM Method D2070
