

Material Specification Sheet for White 70 duro Silicone

	Typical Data
Specific Gravity	1.21
Ultimate Tensile Strenght, PSI	1150
Ultimate Elongation, %	350
100% Modulus, psi	620
Hardness, Shore A, pts	72
Compression set, % (Method B, 70 hrs @ 150 c)	42

Composition of the White Silicone formula meets the code of Federal Regulation under 21-CFR 177.2600, intended for Food contact application. The material meets the requirement of the federal cosmetics and drugs act as amended.
