

# 6 Litre Bucket & Lid

5688x + 5689x

nelsonjameson.com

800-826-8302

Available in 8 colours

The handle is attached to the bucket from the inside to avoid the hook from catching the users' clothing.

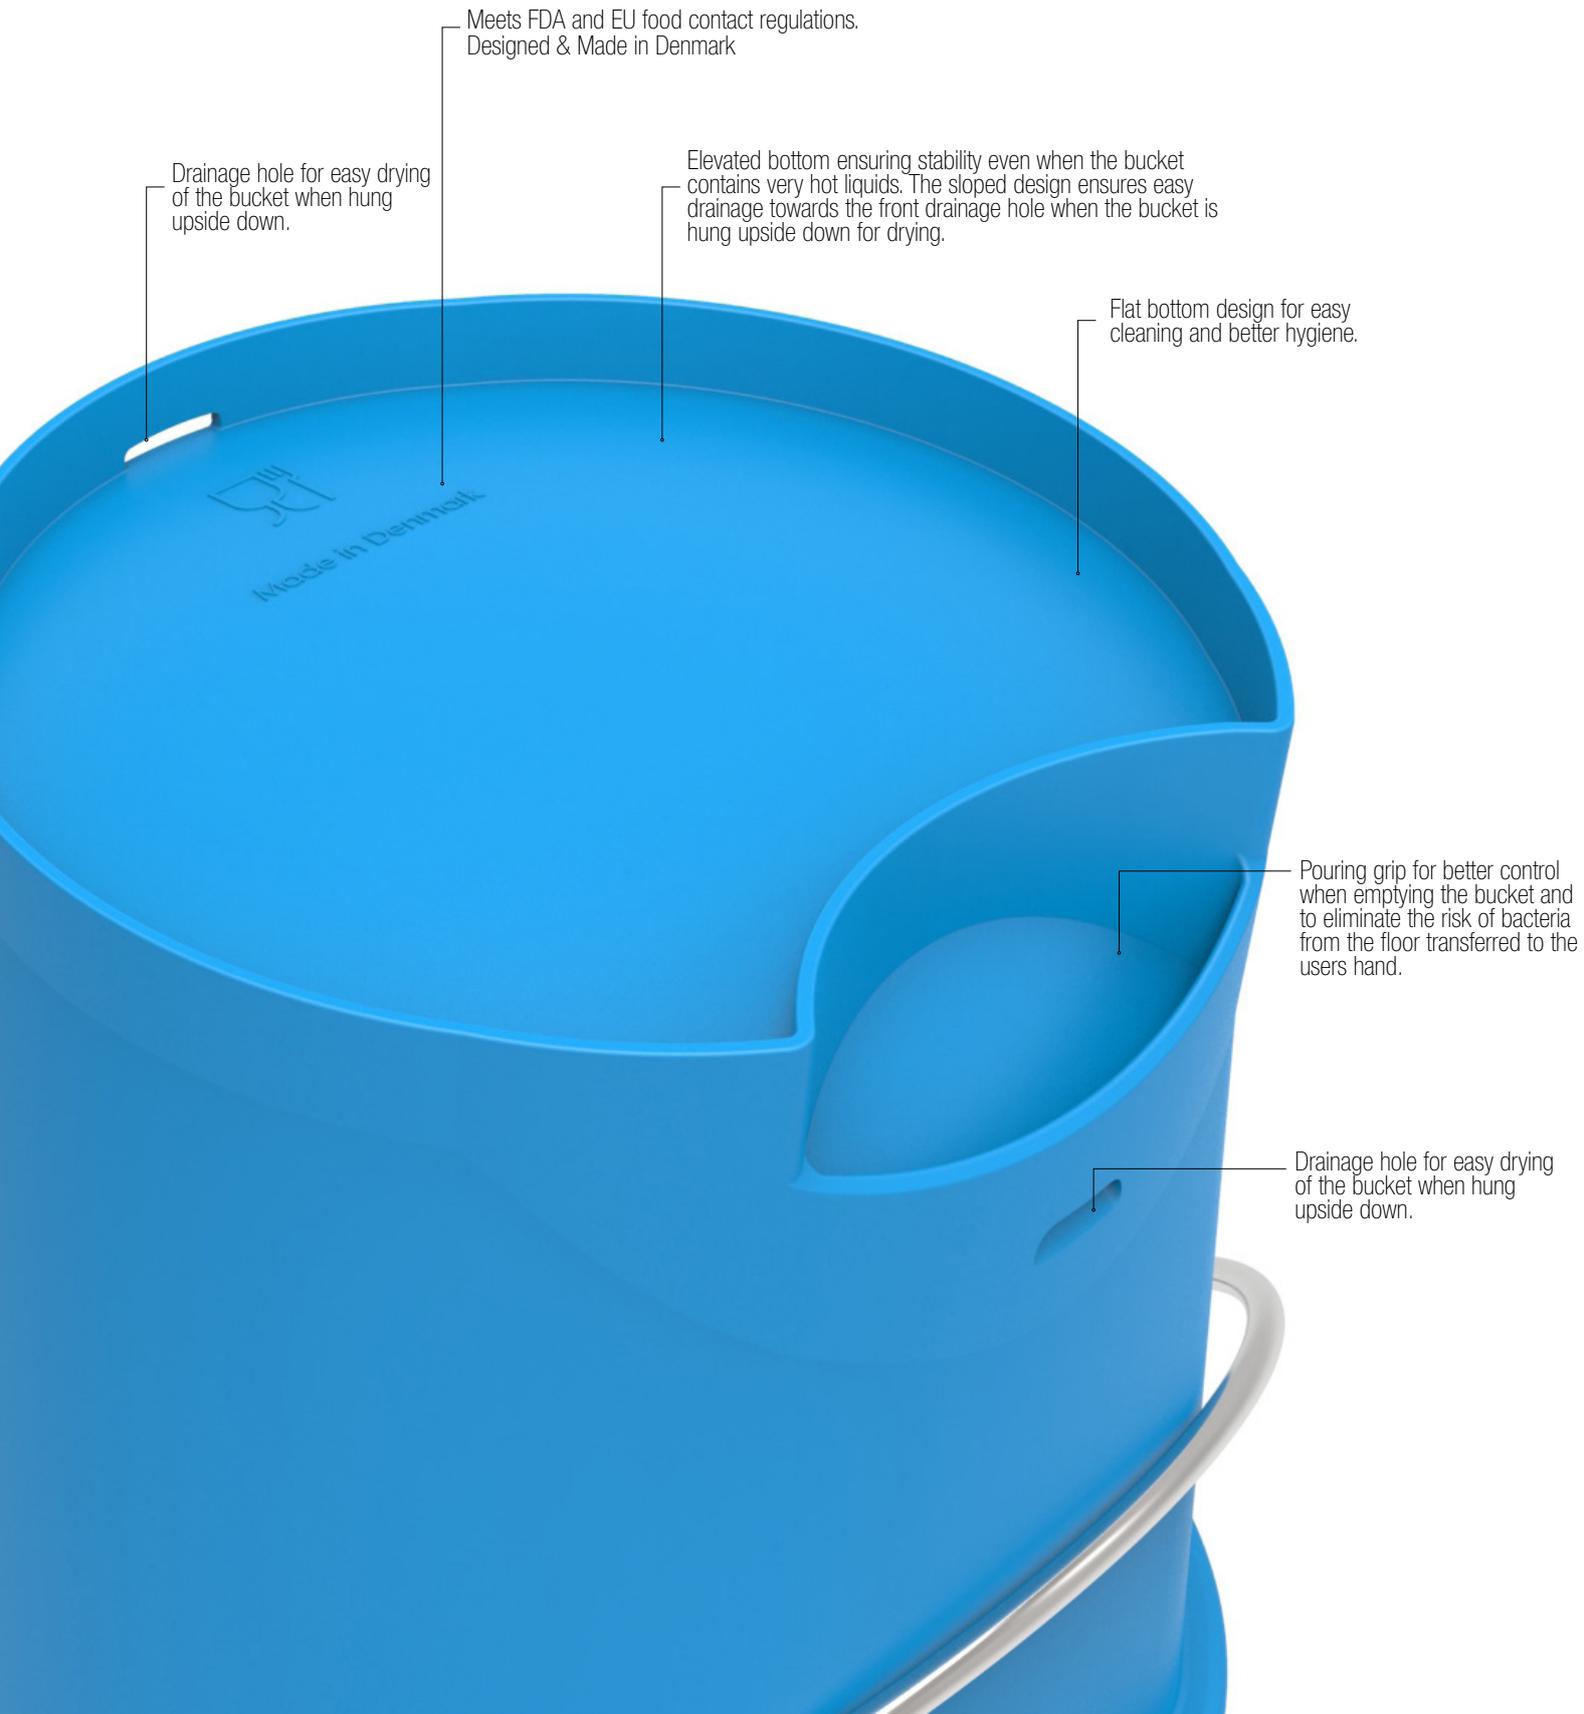

Spout designed for easy pouring and preventing liquids from running down the side of the bucket.

Handle made from food contact approved stainless steel.

The flat backside of the bucket facilitates easy and ergonomic carrying close to the users body.

Material in polypropylene and AISI 304 stainless steel.

Meets FDA and EU food contact regulations.  
Designed & Made in Denmark

Drainage hole for easy drying  
of the bucket when hung  
upside down.

Elevated bottom ensuring stability even when the bucket  
contains very hot liquids. The sloped design ensures easy  
drainage towards the front drainage hole when the bucket is  
hung upside down for drying.

Flat bottom design for easy  
cleaning and better hygiene.

Pouring grip for better control  
when emptying the bucket and  
to eliminate the risk of bacteria  
from the floor transferred to the  
users hand.

Drainage hole for easy drying  
of the bucket when hung  
upside down.

Measuring scale in Litres and US/UK Gallons.

Click on lid to avoid foreign body contamination risks.

Stackable lid design with heightened rim ensuring easy and safe positioning when buckets are stacked on top of each other.

Vikan drop shaped hanging hole for easy storage of lid on wall bracket (16200).

Wear and tear resistant "in moulded label" for easy identification

Fits new wall bracket (16200). New wall bracket both fits 12 litre (5686x) and the new 6 litre bucket (5688x) and their lids.
