Microfiber

Microfiber Wet Mops

Use to clean floors, walls, ceilings and more. Special looped-end fibers glide over floors for easier mopping without linting. Microfiber fill instead of foam for faster and more thorough drying compared to rags and the common mop—reducing the potential for bacterial, mold and mildew growth inside the very tools you are supposed to be cleaning with. Can also be used for dry mopping and dusting. Use with microfiber mop heads and handle.

Expanded colors & styles available

Microfiber Dry Mops

Polish as you dust! Ribbed center mat attracts and holds dust like a magnet. Large looped fringe keeps dust from flying and grabs larger particles and debris. Use with microfiber mop heads and handle.

Microfiber Mop Heads and Handle

Use with wet or dry microfiber mops. The lightweight aluminum mop heads have replaceable Velcro strips. Deluxe heavy-duty plastic frames are built to withstand the toughest of environments. The contour frame is made of flexible material to easily clean curved equipment surfaces, corners, and more. All frames accept the aluminum handle which telescopes from 38" to 71". Mops, heads and handles sold separately.

Why Microfiber?

Microfiber products can save you significant time, money and labor compared to traditional cleaning tools.

Significantly reduce chemical usage.

- Remove up to 400% more dirt, dust and grime with a single pass.
- Provide effective cleaning after more than 500 uses (use and launder).
- Long product life could save you as much as 60% per year over the cost of traditional alternatives.

Microfiber Cleaning and Polishing Cloths

Terry cloths work better and last longer than cotton rags. Microfiber loops hold dirt and grease without redepositing. Suede polishing cloth is ideal for cleaning mirrors, windows, stainless steel or other metallic surfaces. Rinse clean and dry fast. Washable for repeated use.
