HONEYWELL Safety Footwear

Technical Data Sheet

SAFETY FEATURES

ELEMENT	DESCRIPTION	STANDARD TEST METHOD	TEST RESULT
Safety toe	Yes	ASTM F2413-11 M C/75 I/75 EH	Pass
Non-Safety Toe	N/A	N/A	N/A
Metatarsal protection	N/A	N/A	N/A
Puncture protection	N/A	N/A	N/A
Electrical hazard	Yes	ASTM F2413-11 M C/75 I/75 EH	Pass
Waterproof protection	100% Waterproof	N/A	N/A
Slip resistance	N/A	N/A	N/A

FEATURES:

- Seamless, PVC, 3 stage injection molded construction
- 100% waterproof protection
- TDT outsole compounds are formulated for longer wear reducing inventory and slip resistance
- Steel shank longer, larger and positioned for optimal support
- EH

APPLICATIONS:

- Agriculture
- Manufacturing
- Farming
- Food Processing

Product Dimensions

Boot Weight (by pair)		Boot Height		Case Dimensions		
Lbs.		Inch	Cm	Lbs.	Length	Width

CARE AND STORAGE :

Before each wear, all safety footwear should be inspected for cracks, cuts, punctures or any damage. Failure to do so may result in the boot not meeting expectations for protection, and or injury to the wearer. Be sure to clean your safety footwear regularly; brush dirt and debris from upper with a soft brush or cloth, remove dirt, stones and any other debris from outsoles with a course brush. Use any type of commercial leather cleaner and/or preservative to clean a leather upper. Be sure to let boots dry over night. Insoles are removable and can be cleaned with soap and water, be sure to also let insoles completely dry before re- inserting. Indefinite shelf life when stored in original packaging in a cool dry place away from light. Recommended temperature range: 50°F to 86°F (10°C to 30°C).

WARNINGS

*Extreme caution should be used around moving machinery.

**Cleaning of boots that have been in contact with toxic or corrosive chemicals may result in a chemical reaction, including fumes that could cause personal injury or serious illness.
