

TECHNICAL DATA SHEET

KSS-67110-NE

PRODUCT CODE

KSS-67110-NE

PACKAGING

Cases of 100 containing 5 packs of 20 units

SHELF LIFE

18 month

PRODUCT DESCRIPTION

This Sani-sponge kit is designed to collect samples to detect the presence of microbiological contaminations such as Listeria, Salmonella, E. coli and other food borne pathogens on almost any surface. These kits are widely used in the food industry. The Sani-sponge kit is convenient, easy to use and helps eliminate several time consuming steps. All sponge kits come with a 5.5 x 11 inches Twirl'em sterile sampling bag.

PRODUCT SPECIFICATIONS

Closure	2 round wire closure system with safety tabs
Closure material	Steel wires covered with FDA approved pressure sensitive tape with a backing of polypropylene or PVC.
Printed	Sani Sponge printed
MSDS / Formulation	Available upon request
