Skin: Wash exposed area of skin with water. If burned by contact with hot material, cool material as quickly as possible with water. See a physician for burn treatment, irritation or allergic reaction.

Ingestion: If uncomfortable or symptomatic, seek medical assistance promptly.

Inhalation: If adverse effects occur, remove to uncontaminated area. Get medical attention if symptoms persist.

4.2. Most important symptoms and effects, acute and delayed

Symptoms/injuries: High vapor concentration may induce headache, nausea, dizziness and respiratory irritation. Prolonged/repetitive skin contact may cause skin defatting or dermatitis.

4.3. Indication of any immediate medical attention and special treatment needed: See 4.1 and 4.2.

5. FIRE FIGHTING MEASURES

5.1. Extinguishing media: Dry chemical, carbon dioxide, foam, steam or water fog. Agents approved for Class B hazards.

Unsuitable extinguishing media: Water streams will scatter liquid and spread fire, but may be used to keep fire-exposed containers and surroundings cool.

5.2. Special hazards: May create dense smoke during combustion

Fire hazard: Mild fire hazard when heated above its flash point; material must be preheated before ignition will occur (OSHA Class IIIB).

5.3. Advise for firefighters:

Firefighting instruction: Cool unaffected containers and remove to safety.

Firefighting protection: Firefighters should wear full bunker gear, including a positive pressure self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

Personnel: Wear appropriate breathing apparatus, protective clothing gloves and eye/face protection. No smoking. Refer to section 8.

Emergency procedures: Remove all sources of ignition. Keep away from heat/sparks/open flames/hot surfaces.

6.2. Environmental precautions Prevent spills from entering sewers and public waters.

6.3. Containment / Cleanup

Containment: Dike around spill; have oil-absorbent materials readily available.

Cleanup: Remove mechanically or contain on an absorbent material such as dry sand or earth and dispose of in accordance with current applicable regulations

7. HANDLING AND STORAGE

7.1. Handling No special requirements; observe good industrial hygiene practices.

7.2. Storage Do not store in open or unlabeled containers. Store away from strong oxidizing agents or combustible material.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1. Control parameters

Limits: OSHA PEL – 2 mg/m³ (oil mist) (1989) (1971)

ACGIH TLV-TWA – 2 mg/m³ (oil mist)

ACGIH TLV-STEL – 4 mg/m³ (oil mist)

8.2. Exposure controls Control airborne concentrations below the exposure guidelines. Provide local exhaust or general room ventilation to minimize vapor concentrations. Provide emergency eye wash fountains and safety showers.

Eye: Wear protective goggles or face shield if splashing is possible.
