

PRODUCT INFORMATION

Item # 1563775

Specifications & Description

Sterile	Yes
Max Volume (μL)	25000
Max Volume (mL)	25
Max Dispensing (mL)	25
Increments (mL)	0.2
Accuracy (%)	±2.00%
Tip Style	Standard
Body Material	Polystyrene
Color Code	Green
Calibration	To Deliver (TD)
Package Of	Individually wrapped
Description	PS Serological Pipettes, 25 mL, Sterile Indv; 150/Cs

PRODUCT INFORMATION

MORE ABOUT THIS ITEM

These serological pipettes are made from transparent bio-compatible polystyrene (PS). Unique filter plug eliminates lint fibres and ensures the plug stays in place to prevent overfilling. Each lot is tested for endotoxins and cytotoxicity, and guaranteed non-haemolytic—ideal for tissue culture applications. The highly legible permanent graduations prevent ambiguity and guarantee precise dispensing to $\pm 2\%$. Generous negative graduations provide additional pipetting volume.

The individually wrapped pipettes are supplied in a fiber-free paper/plastic combination that is easy to open. The dispenser box allows you to remove pipettes without opening the top. Universal stacking design requires less laboratory space and each box is color-coded for quick recognition.

Warning: This product is not approved or intended for, and should not be used for medical, clinical, surgical or other patient oriented applications.
