

PRODUCT INFORMATION

Item #460-3489

Details

- Designed and tested for use with the 3M™ Electronic Pipettor 1 mL.
- Wide bore for easy sample uptake and dispensing.
- Available pre-racked for fast, convenient sampling or in bulk for setting up custom racks.
- Improved accuracy in sampling and diluting when used with the 3M Electronic Pipettor, reducing labor and improving reliability.

When used with the 3M™ Electronic Pipettor, 3M™ Pipettor Tips enhance the efficiency and labor-saving benefits of 3M™ Petrifilm™ Plates by providing accurate and precise pipetting of samples.

3M Pipettor Tips detach quickly and easily from the 3M Electronic Pipettor for productive lab operations. Tips are available in pre-racked, bulk and pre-sterilized. The tapered tips are designed to hold fluids for accurate sample uptake and dispensing when used with the 3M Electronic Pipettor.

3M Pipettor Tips can be used effectively with the 3M Electronic Pipettor in testing a wide variety of food and beverage samples.

Specifications

Brand	3M™
Capacity (Metric)	1 mL, 5 mL
