

# PRODUCT INFORMATION

## NELSO-JAMESON PH 4.01 BUFFER, 475 ML RED

Item #5043030 F

All Orion pH Buffer Bottles have pH/temperature tables printed on the labels for accurate calibrations and NIST traceability. Manufactured under ISO 9000 quality standards.

Composition	Water, Potassium Hydroxide, Amaranth Red No. 27, Potassium Hydrogen Phthalate
For Use With	for accurate, reproducible pH calibrations
For Use With (Equipment)	pH Meter and Electrode
Physical Form	Liquid
Solubility	Soluble
Solution Type	Buffer solution
Description	pH 4.01 (Red) Buffer
NIST Traceable	Yes
Packaging	Bottle
Boiling Point	100°C
pH	4.01
Color	Red
Quantity	475mL
Type	pH Buffer, bottles
Unit Size	Each
