**Item #7163107**

## VWR® Disposable Petri Dishes

Clearly superior, high-quality Petri dishes are manufactured from virgin crystal grade polystyrene for optimum flatness and high optical clarity.

- Virgin crystal grade polystyrene construction
- Available in varied sizes and styles for specialized and routine applications
- Stacking ring and slip-ring features available
- Supplied sterile

VWR® Petri dishes are available in a variety of sizes and styles to accommodate both specialized and routine needs. The stacking ring feature, on some models, facilitates positive stacking while the slip-ring feature, on other models, facilitates lateral or automated handling. Dishes are sterilized by irradiation or EO and are packaged in linear tear, medical style bags.
