# HONEYWELL UVEX GENESIS®

Honeywell Uvex Genesis®, a top-selling protective eyewear brand, has been consistently delivering excellent safety for workers across all industries for decades.

Honeywell Uvex Genesis® is a world-renowned premium eyewear model engineered to deliver all-day comfort, protection and style. Built with MMT—Multi-Material Technology® and a high level of adjustability, Genesis provides workers with extraordinary all-day comfort and raises the bar on compliance.

## HIGH PERFORMANCE PROTECTION

- Wrap-around 9-base uni-lens style for uncompromised peripheral vision and superior coverage.
- The dual-action hydrophilic and hydrophobic HydroShield® Anti-Fog Coating lens provides consistent 90X longer lasting fog-free performance\* than majority of other anti-fog coatings — even after extended wear and repeated cleanings — and provides 2X greater scratch-resistance\*\*. It is permanently bonded to the lens means no re-application is needed.
- Offers highest available impact protection.
- Meets ANSI Z87.1-2015 (High Impact) and military V<sub>0</sub> ballistic impact test (protection against impact energies 7x higher than ANSI requirements on key SKUs).
- Certified to meet CSA Z94.3 2015 standards.
- Available in a wide range of lens tints to address the needs of virtually any work environment.

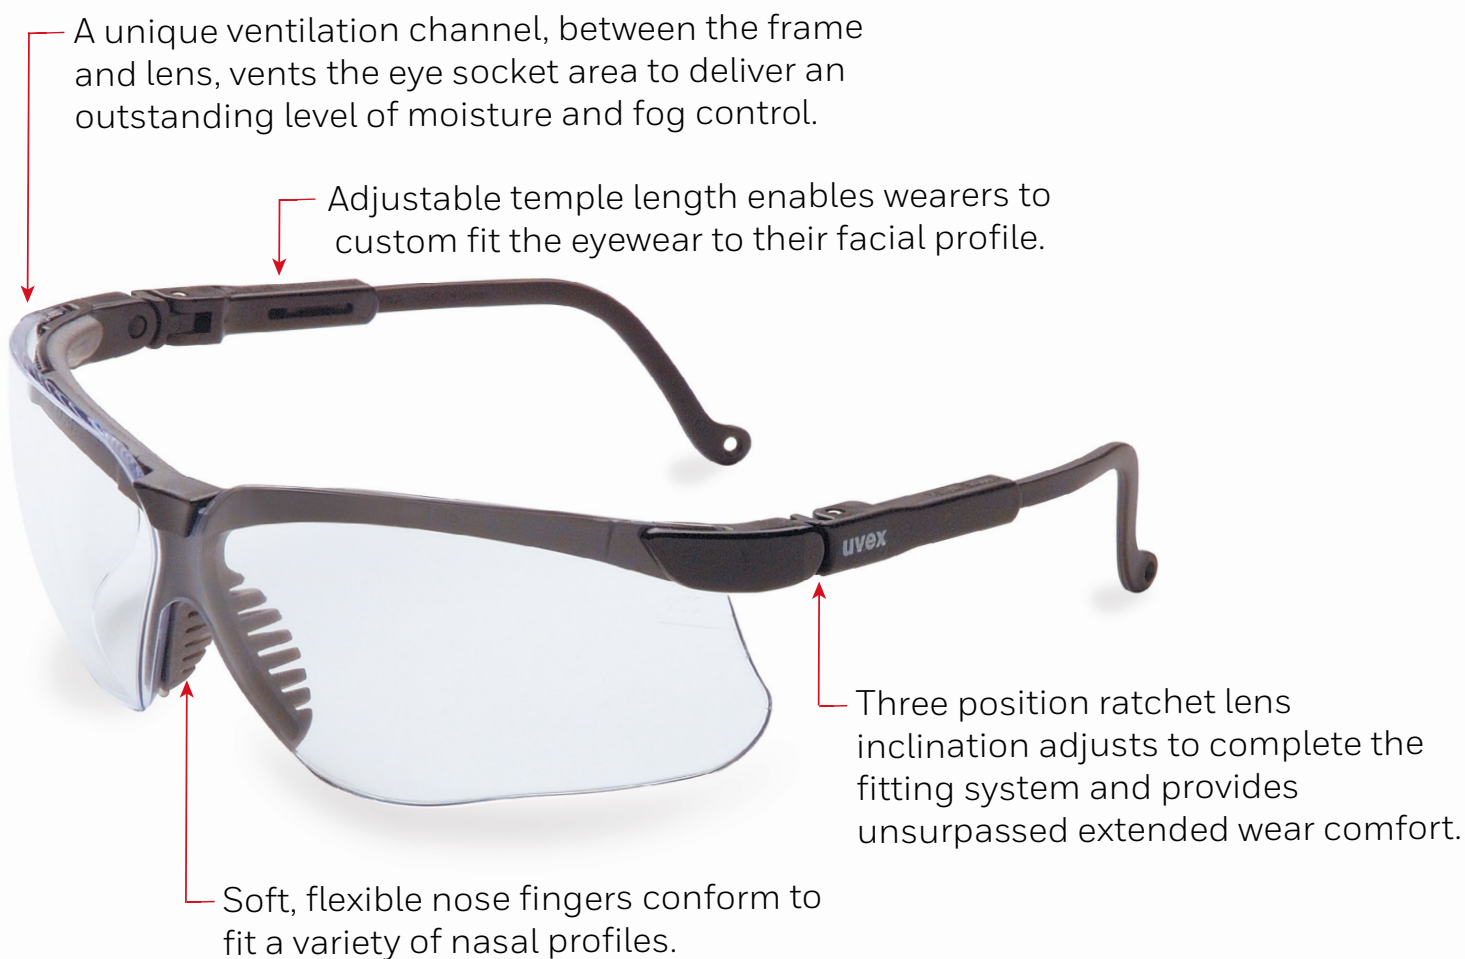

## SUPERIOR COMFORT & FIT

- Soft elastomer browguard diffuses and deflects impact while providing comfort at all contact points.
- Soft flexible fingers on the nose piece adjust and conform to almost any nasal profile to reduce slippage.
- Adjustable temple length

## PRODUCT PLATFORM ADVANTAGES & VALUE

- Economical and easy lens replacement system allows for multiple lens tints and extends the life of the eyewear.
- Multiple models in a family offers standardization while offering workers choice.
- Lifetime frame guarantee.

# HONEYWELL UVEX GENESIS® XC

The all-in-one solution in protective eyewear, Honeywell Uvex Genesis® XC eyewear sets the standard for extra coverage and extra comfort on the job.

Benefit from extended protection and more than 180° of peripheral coverage with Genesis® XC's innovative design. Additionally, its ergonomically balanced MMT — Multi-Material Technology® frame ensures exceptional all-day comfort. With the Rx lens insert, Uvex Genesis® XC offers an alternative for workers requiring vision correction. It holds Rx lenses snugly inside the comfortable Genesis® XC eyewear, shielding expensive prescription lenses from damage. The Genesis® XC provides all-day comfort and coverage, and especially for prescription lens wearers, nothing protects like Genesis® XC with the Rx lens insert.

## HIGH PERFORMANCE PROTECTION

- Extended wrap-around lens for extra cheek and extra side coverage (up to 20% more than the standard Genesis® lens).
- The dual-action hydrophilic and hydrophobic HydroShield Anti-Fog Coating lens provides consistent 90X longer lasting fog-free performance\* than majority of other anti-fog coatings — even after extended wear and repeated cleanings — and provides 2X greater scratch-resistance\*\*. It is permanently bonded to the lens means no re-application is needed.
- Offers highest available impact protection. Meets ANSI Z87.1-2015 (High Impact).

- Certified to meet CSA Z94.3 2015 standards.
- Available in a wide range of lens tints to address the needs of a variety of work environments.

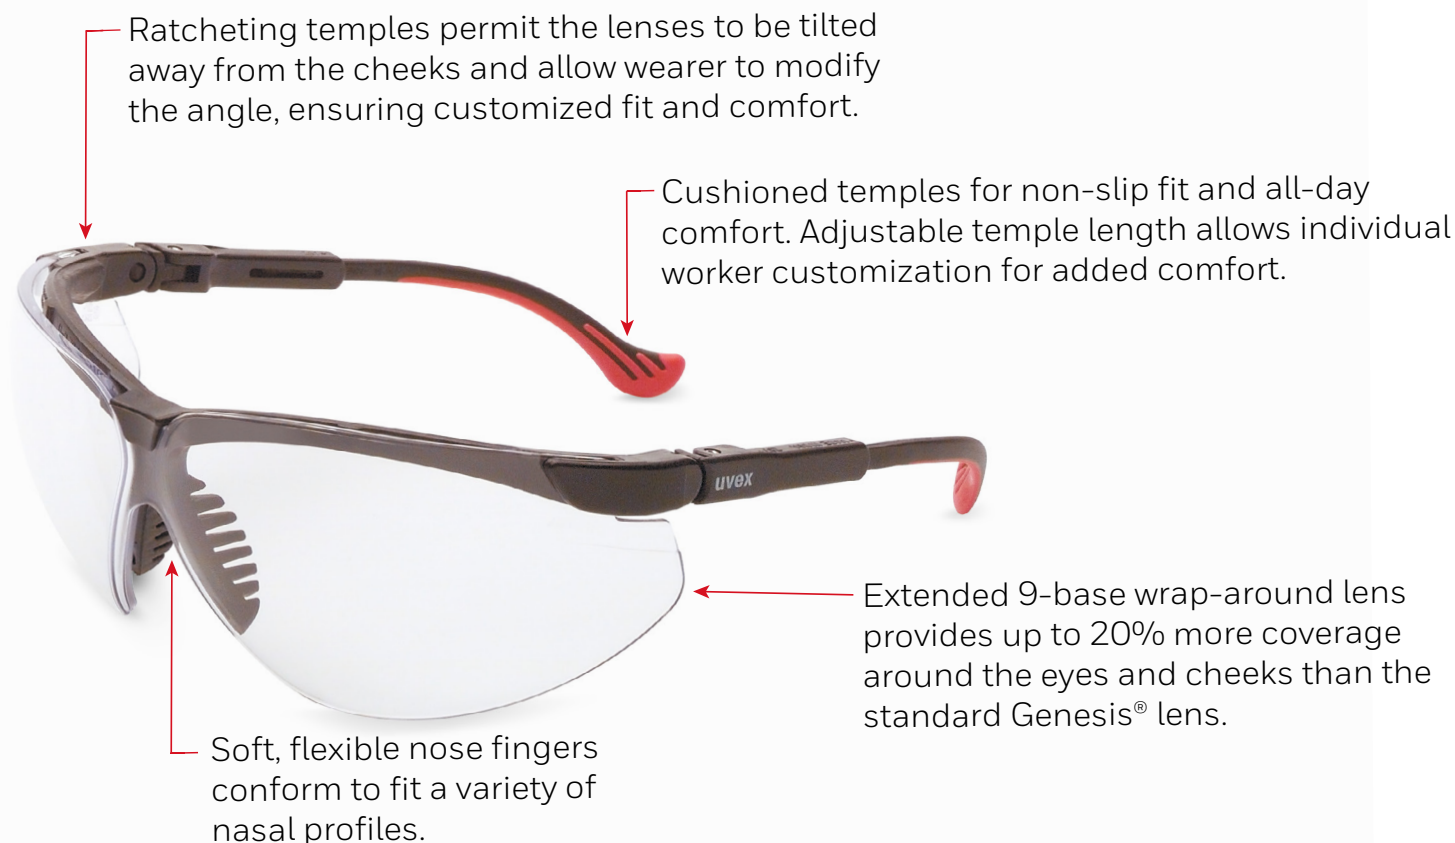

## SUPERIOR COMFORT & FIT

- Soft elastomer browguard diffuses and deflects impact while providing comfort at all contact points.
- Soft flexible fingers on the nose piece adjust and conform to almost any nasal profile to reduce slippage.
- Adjustable, ratcheting temples allow customized lens inclination and fit.
- Cushioned temple tips offer all-day comfort.

## PRODUCT PLATFORM ADVANTAGES & VALUE

- Economical and easy lens replacement system allows for multiple lens tints and extends the life of the eyewear.
- Optional Rx lens insert holds prescription lenses securely, and accommodates a variety of Rx needs, including bifocals, trifocals and progressive lenses. With a classic screw closure, it easily fits prescriptions ranging from +3.0 to -3.0 D and offers an economical option for workers who require vision correction.
- Multiple models in a family offers standardization while offering workers choice.
- Lifetime frame guarantee.

# HONEYWELL UVEX GENESIS® S (SLIM)

We are all different. Therefore, our needs are diverse. A proper fit and comfort are the key to reliable protection. Honeywell Uvex Genesis® S (Slim) has one suitable solution for everyone.

The Genesis® S (Slim) is part of the number one selling eyewear family on the market today. Adding to the Genesis® family's comfort, performance, and style, the Honeywell Uvex Genesis® S (Slim) offers a 6% smaller frame for workers with slimmer facial profiles. Once again, we've made it easier to fit more workers with the best-selling safety eyewear in the world. More faces. More choices. More compliance.

## HIGH PERFORMANCE PROTECTION

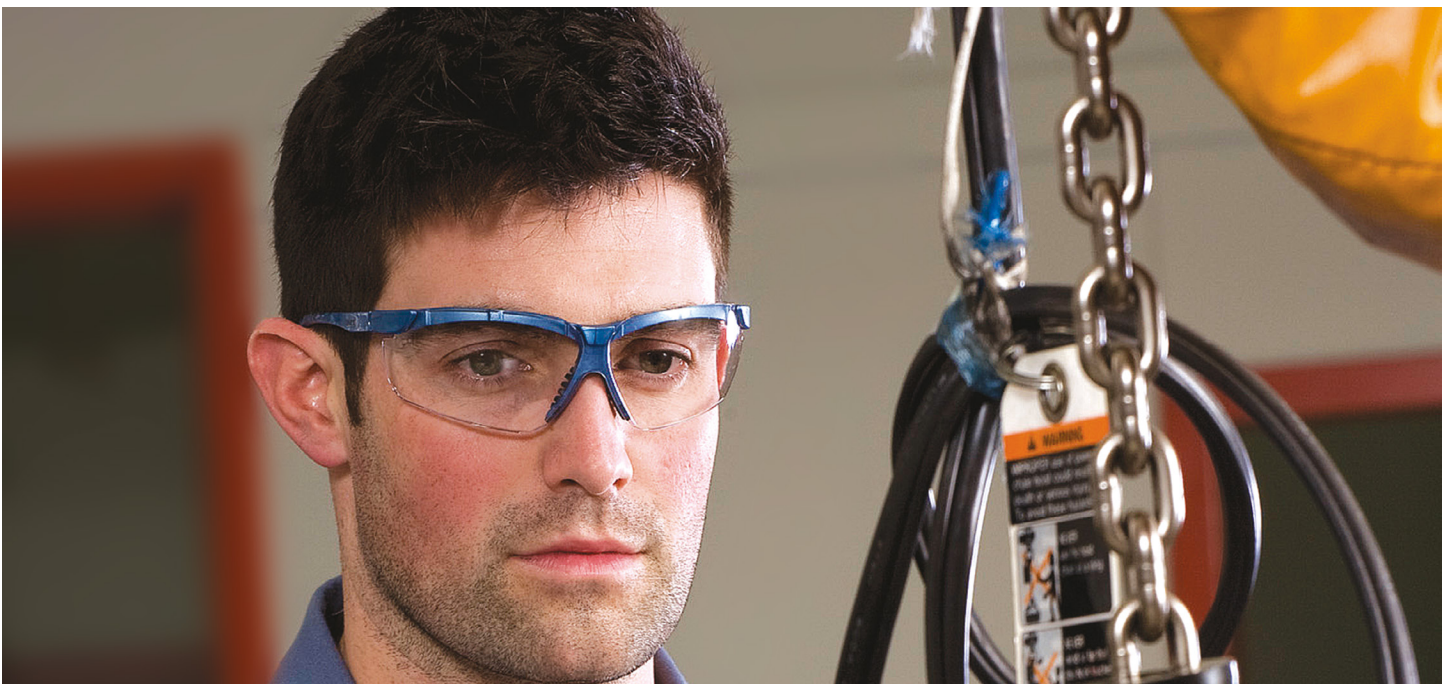

- Wrap-around, 9-base uni-lens style for uncompromised peripheral vision and coverage.
- Offers highest available impact protection. Meets ANSI Z87.1-2015 (High Impact).
- Available in Clear lens tint and both Ultra-dura® HC and Uvextreme® AF coatings.

## SUPERIOR COMFORT & FIT

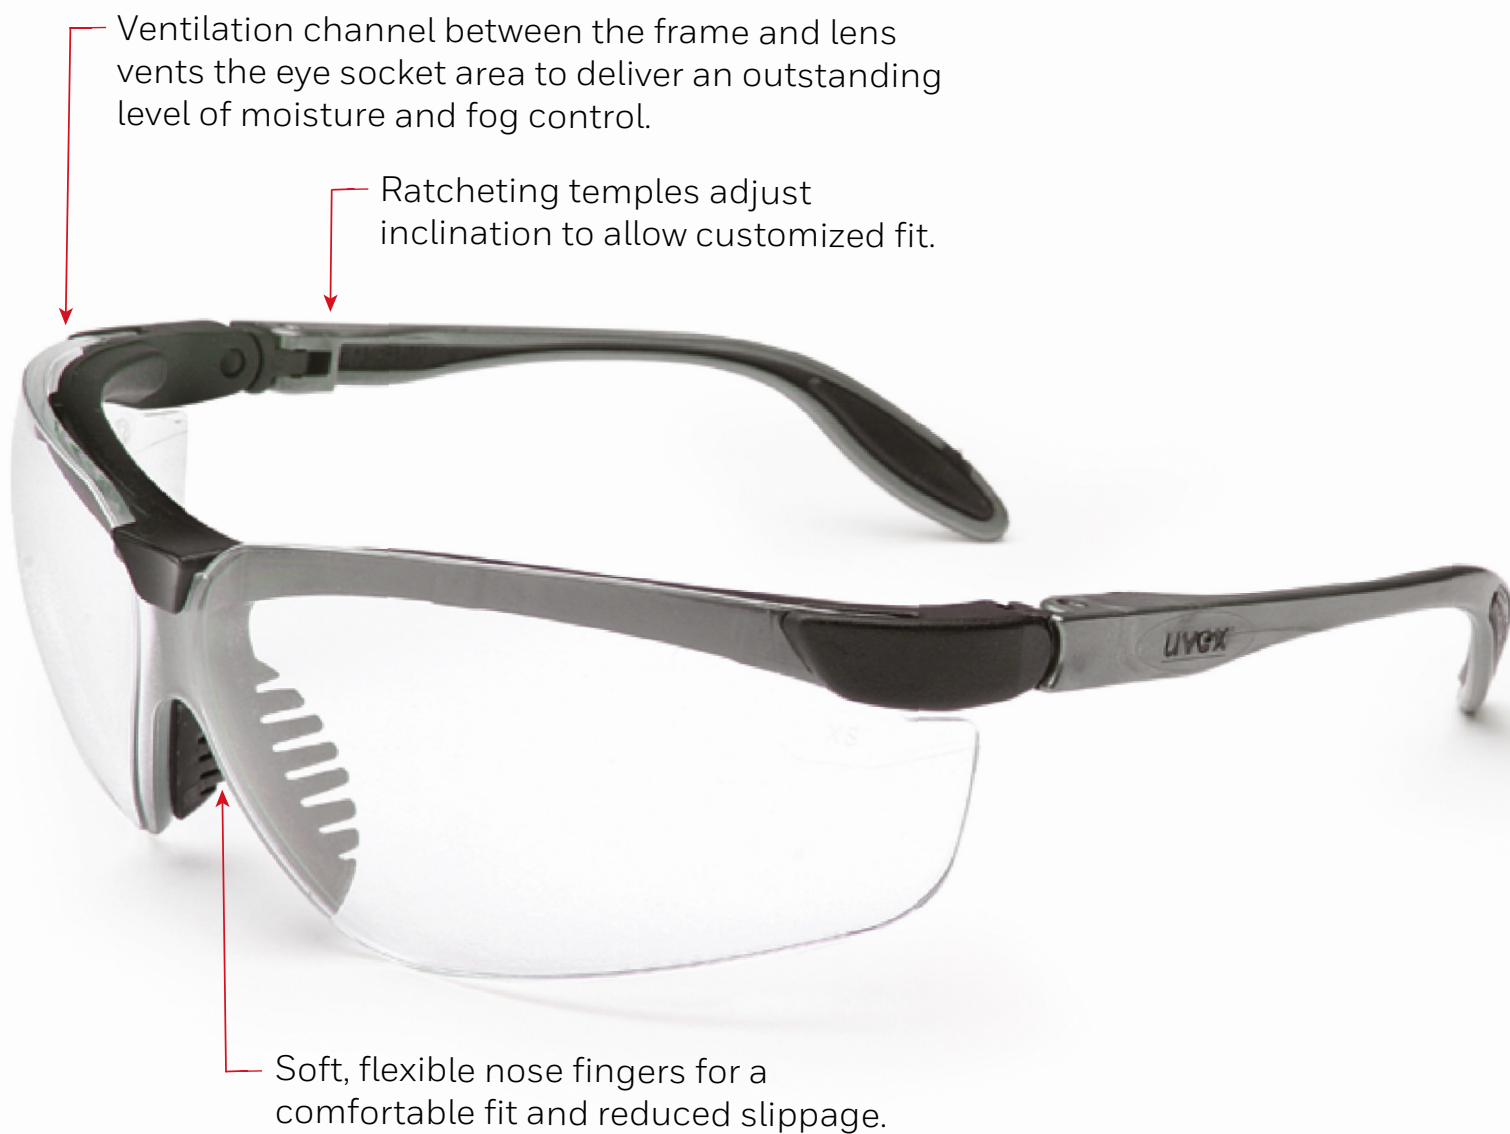

- Frame and lens are 6% smaller than Genesis® to fit slimmer facial profiles.
- Soft brow guard absorbs and diffuses impact energy.
- Soft, flexible "fingers" on nosepiece conform to a variety of facial profiles and minimize slippage.
- Padded temple and tips provides all-day comfort.

## PRODUCT PLATFORM ADVANTAGES & VALUE

- Multiple models in a family offers standardization while offering workers choice.
- Lifetime frame guarantee.

# HONEYWELL UVEX GENESIS® READERS

Great comfort, protection and style with a range of five magnification strengths. An excellent choice for workers needing increased magnification for close-up inspection or fine detail work.

Combining the simplicity of standardization with the ability to meet workers' individual needs with Honeywell Uvex Genesis® Readers, the Genesis® family continues to be a highly versatile line of safety eyewear. Genesis® Reading Magnifiers offer the best in comfort, protection and style as well as an extensive range of magnification strengths. These reading magnifiers are an excellent choice for workers needing a clear view for close-up inspection, fine detail work and reading smaller prints.

## PREMIER PERFORMANCE

- Available with Ultra-dura® Anti-Scratch coating and five diopter strengths from +1.0 to +3.0 magnifications.
- Available in Clear and Standard Gray tints.
- Meets ANSI Z87.1-2015 (High Impact).
- Multiple models in the Genesis family offer the ability to standardize on a product family while still offering workers eyewear choices.

## SUPERIOR COMFORT & FIT

- Soft, flexible nasal fingers conform to a variety of facial profiles and minimize slippage.
- Padded temple tips and cushioned browbar provide all-day comfort and diffuse and deflect impact energy.
- Adjustable temple length and ratcheting lens inclination adjustment offer a secure, customized fit.

Ventilation channel between the frame and lens vents the eye socket area to deliver an outstanding level of moisture and fog control.

Wide range of magnification strengths offered with five different diopters.

Premier all-day comfort with soft, high-quality elastomer nasal fingers, padded browbar and temple tips.

#### DIOPTRER CHART

Hold chart 14 inches from face to figure diopter strength.

If this line is difficult to read, use +1.5

If this line is difficult to read, use +2.0

If this line is difficult to read, use +2.5

*\*) Comparative lens life test performed using a Bayer Abrasion Test method and may vary between environment and application.*

*\*\*) Honeywell Uvex HydroShield® Anti-Fog technology was tested under the most stringent anti-fog standard in the world. Under this test, the lenses consistently remained fog-free 90X longer than the majority of other anti-fog products. Under the test for the European EN 166/168 standard, a lens is soaked in water for two hours to simulate the cumulative moisture lenses are subjected to over time from sweat, washing, and extreme work environments. After drying, the lens is exposed to steam and the duration of its fog-free time is recorded.*
