

PASSAGE NO. 323

PRODUCT DESCRIPTION

Passage, No. 323 is a granular low foaming floor treatment designed to maintain cleanliness on food, beverage and dairy plant floors after cleaning. When moisture is present, the product liberates both hydrogen peroxide and quaternary amine complex. Surfactant reduces the surface tension and allows the product to penetrate crevices and hard to clean areas. This product is more effective at lower moisture levels than Quaternary based product.

FEATURES & BENEFITS

- More effective at lower moisture levels than Quaternary based products.
- Less dusty than other floor intervention chemistries.
- Does not cake when it becomes wet.
- Highly effective in both dry and moist forms.

USES AND APPLICATIONS

- Can be used to clean floors.
- Used as a dry floor treatment.
- Excellent drain cleaning product.
- Consult your Hydrite representative for specific recommendations

PROPERTIES

Form:.....Powder
Foam:.....Low
Color:.....White
