

## Transport Large Loads With Ease

Carlisle's new tilt trucks provide efficient, industrial strength construction enabling transportation of loads up to 1,200 lbs. Our tilt trucks are easily maneuverable by one person and we've engineered a hinged lid for each size in the case your operation stores waste or materials where it's best to keep things covered up.

### Improved Maneuverability

- Lightweight, rotational molded design improves maneuverability
- Non-marking, swivel casters allow for easy transportation
- 5/8 & 1 Yard easily fit through standard doorways and elevators
- Made with more than 70% post consumer recycled material

More Information On Back
