

The HD HANDLER™ Pre-Stretch Film

Norflex, Inc. manufactures and offers a complete selection of 3-layer Co-ex blown stretch film for hand, machine, and custom applications. We have been manufacturing stretch films for over 20 years, and over that time developed some of the best products on the market today.

The HD HANDLER™ Pre-Stretch Film

Norflex, pre-stretch provides users with same (or better) load stability with less product, less physical energy, and greater control. Pre-stretch, hand applications can create the same load stability as machine applications. Our film can be pre-stretched as much as 340%.

Pre-Stretch Benefits:

- No width reduction during tensioning reduces number of wraps required to secure load.
- Excellent film cling ensures film tails will stay in place.
- Good film clarity allows easier inspection of packaged products.
- Superior load retention provides better load stability
- Performs well in extreme cold.
- Stabilizes shifting and protruding loads.
- Facilitates compliance with Packaging Waste regulations - less use means less to dispose.
