

# DERMACARE™

PRE/POST-MILKING TEAT DIP

**DERMACARE™** is a very gentle pre and post-milking teat dip with exceptional skin conditioning properties and proven efficacy against mastitis-causing organisms.

**DERMACARE's** unique nonaggressive formulation and excellent cleaning properties combined with the absence of residue concerns make **DERMACARE** a product of choice for pre-milking application. **DERMACARE's** ability to penetrate any interstice of the skin combined with remarkable conditioning properties make it an excellent product for post-milking application.

## FEATURES/BENEFITS

- One product for pre and post milking application
- Can be used with sprayers and dippers
- Does not contain aggressive oxidizers (Iodine, Chlorine bleach, Hydrogen peroxide, or Chlorine dioxide)
- Microbiocidal activity is derived from the synergy between lactic acid, fatty acids, other unique ingredients and special active-active agents
- Contains 8.5% ESP™ skin conditioning technology: a unique combination of humectants, plasticizer, emollient, and moisturizer agents
- Non aggressive, promote rapid healing of injured teats
- No iodine or other residue concerns
- Very effective against a broad range of micro-organisms
- Fast-acting

## PROPERTIES

<b>Capric/Caprylic Acids:</b>	1% (10,000 ppm)
<b>Skin Conditioners with ESP:</b>	8.5%
<b>Appearance:</b>	Clear, orange liquid
<b>Density:</b>	8.6 lbs/gallon
<b>pH:</b>	2.6-3.2 (as is)
<b>Odor:</b>	Mild, medicinal

## USAGE GUIDELINES

### PRE-DIPPING/SPRAYING:

Teats should be clean and dry before dipping. If needed, wash and dry with a single service towel. Dip/spray with undiluted product and allow 20-60 seconds contact time. Wipe the teats dry before applying the milking unit.

### POST-DIPPING/SPRAYING:

Dip/spray teats with undiluted product immediately after milking. Allow to air dry. With freshening cows, begin dipping teats twice daily for about 10 days before calving. For dry cows, dip/spray teats once a day for several days following the last milking. DURING COLD WEATHER, do not turn out cows until teats are dry to prevent chapping and freezing. If necessary, wipe dry with a single service towel.

**DO NOT USE THIS PRODUCT FOR CLEANING AND/OR SANITIZING EQUIPMENT.**

## SAFETY INFORMATION

In case of emergency, **CALL 1-800-424-9300**

### CAUTION

- Keep out of the reach of children
- May cause death if swallowed
- Harmful if inhaled
- Causes eye irritation
- See below for additional precautions and/or consult material data sheet

### PRECAUTION

Protect eyes from contact with this product. Keep container tightly closed when not in use. Use with adequate ventilation. Wash thoroughly after handling product.

### FIRST AID

#### External:

In case of contact, immediately flush contaminated skin with plenty of water. If irritation occurs and persists, call a physician.

#### Internal:

If conscious, dilute by giving several glasses of water or milk. Do not induce vomiting. If vomiting does occur, repeat giving several glasses of water or milk. Get prompt medical attention.

**Never give anything by mouth to an unconscious person.**

#### Eyes:

Immediately flush with plenty of clean, running water for at least 15 minutes, holding eyelids apart to ensure flushing of the entire eye surface. If irritation persists, call a physician.

### SPILL PROCEDURES

In case of small spill (less than one gallon), flood area with a large quantity of water. For larger spills, contain and remove with inert absorbent and dispose of according to Federal, State, and local laws.

### STORAGE & WASTE DISPOSAL

Store this product in a cool, dry area away from direct sunlight and heat to avoid deterioration. Store in a locked cabinet or room to keep it out of the reach of children. Dispose of according to Federal, State, and local laws.

### KEEP FROM FREEZING
