FDA Approved Material in the Buckhorn Jumbo Lugs & Lids

To whom it may concern:

The Buckhorn Jumbo Lugs and lids are molded using FDA compliance material and colorant. This includes the following part numbers JL2516096800000 lug in natural (white), JL2516096801000 lug in light grey, JL2516096802000 lug in red, JL2516096809000 lug in dark blue, JL2516096818000 lug in yellow, LJ2516020000000 lid in natural (white), and LJ2516020001000 lid in light grey.

Our Polyethylene resin used to mold this container and its lid comes from suppliers like ExxonMobil, and these materials comply with the specifications contained in the U.S. Food and Drug Administration (FDA) regulation 21 CFR 177.1520 for olefin polymers, paragraph. (c) 3.1a and (c) 3.2a, and may thus be used in the United States as an article or component intended for use in contact with food.

Our colorant comes from suppliers like National Plastics Color, and this product is acceptable for food contact applications under the provisions of the Food, Drug, and Cosmetic Act and subsequent amendments as outlined in Title 21 of the Code of Federal Regulations. Applicable sections are 21 CFR 177.1520 and 21 CFR 178.3297 which are for the intended end use products manufactured by Buckhorn.

If you have any questions, or require additional information, please contact me at the number below.

Sincerely,

Michael L. Willson
