ENZYTERGE NO. 400

PRODUCT DESCRIPTION

Enzyterge, No. 400 is a neutral, liquid cleaner that contains stabilizing surfactants and concentrated enzymes additives for reverse osmosis, nanofiltration, ultrafiltration and microfiltration membranes.

FEATURES & BENEFITS

- Removes protein soil from membranes.
- Contains specialty surfactants to improve cleaning of fat, protein, and other organic impurities.
- The surfactant package reduces surface tension to promote better cleaning.
- Liquid formula, easy to handle and control usage with automated dosing system.

USES AND APPLICATIONS

- Normal use dilution is 0.15 to 0.25 Fl. Oz./U.S. Gallon.
- Typically, this product is used in conjunction with alkaline membrane cleaners to achieve the optimum pH range of 9.0 – 10.5.
- Temperature - do not exceed 125°F.
- Always follow the membrane manufacturer's guideline and limitations for time, temperature, and pH limitations.
- This product can be used at higher concentration depending upon application.
- Consult your Hydrite representative for specific recommendations

PROPERTIES

Form:.....Liquid
Foam:.....Medium
Phosphorous Content:.....None
Color:.....Clear to slight hazy, light yellow
