

PRODUCT INFORMATION

35" X 45"

HYCAR APRON HEAVYWEIGHT DOUBLE COATED NITRILE (HYCAR)

Rely on our Nitrile HYCAR aprons whenever there's hard work at hand. Offering better abrasion, cut and puncture resistance than Neoprene and natural rubber, the Nitrile (Hycar) apron is also double coated for maximum protection, wear-life and ease of cleaning.

- 35" wide X 45" long
- Nitrile coated polyester – thickness: Approximately 14-17 mil thickness
- 4 grommets reinforced corners
- 48" ties (2 each) – designed to secure from shoulder, across back, to opposite side at waist
- All edges are tuned and secured with single needle lock-stitch – top edge turned 1 ¼" to reinforce neck tie attachment & upper edge. Heavy-duty polyester thread
- Excellent resistance to acids, solvents oils and animal fats
- U.S.D.A. accepted for food and meat handling.
- Heavyweight D/C (Double Coated)
- Available in black, white and yellow
- Sold and packaged by the dozen
- Machine wash warm with mild detergent. Air dry. **Do Not Dry Clean.**
- Temperature Range: -40° - 212° F
