

Lobby Dustpan

New Features:

- 1 Improved Dustpan Design
 - Feet have been added to the bottom
 - The handle angles now provide better balance when standing
 - Flattened and refined pan lip provides more effective sweeping experience
- 2 Refined Lid
 - A sleeker lid profile promotes hygiene and saves space
- 3 Broom Handle Clip
 - The new clip allows broom to be more neatly stored
 - The clip also has a hook, allowing the set to be hung during storage
- 4 Enhanced Broom Head
 - A smooth surface finish provides better hygiene and durability
 - Bristles are now thicker for added durability
- 5 Improved Handles
 - Increased user comfort with the addition of ergonomic grips
 - The thread/handle connection has been redesigned for increased durability

Lobby Dustpan

Assembly and Storage:

Dustpan Assembly

- Close the dustpan lid.
- Place the threaded end of the dustpan handle (the handle with the clip) into the threaded opening on the lid.
- Twist the handle clockwise until it meets resistance and the clip on the handle matches the opening in the pan.

Broom Assembly

- Place the threaded end of the broom handle into the broom head opening.
- Twist the handle clockwise until it meets resistance and the hanging hole of the handle faces forward.

Dustpan and Broom Assembly

- Open the dustpan lid.
- Place the broom inside the dustpan.
- Press the aluminum portion of the broom handle into the clip on the dustpan handle until the handle snaps in place.
- The dustpan lid may now be closed and the broom can be stored inside the dustpan.

Note: Do not attempt to snap the plastic grip of the handle into the clip, as it is designed to fit the metal portion of the handle.
