

## Product Information Bulletin

### **3M™ Corporate Ventures Condensation Management Film Compliance with Food & Drug Administration Regulations**

Issued: 6/17/2015

This bulletin refers to the United States Food and Drug Administration (Code of Federal Regulations) CFR 21, Parts 174-184. Additional information on the Code of Federal Regulations can be found on the following website: <http://www.gpoaccess.gov/cfr/index.html>. 3M Condensation Management Film is identified for use in managing condensation in food processing facilities adhered to indirect food contact surfaces. This bulletin summarizes the respective sections.

#### **Summary of General Provisions:**

The following is a summary of the general provisions applicable to indirect food additives. See 21 CFR Part 174, Section 174.5 for details.

Good Manufacturing Processes (GMP) defined as below should be followed:

1. The quantity of a substance added to food does not exceed the amount reasonably required to accomplish the intended physical or other technical effect in the food-contact article, and
2. Any substance used as a component of articles that contact food shall be of purity suitable for its intended use.

Substances that meet the conditions of GMP and can safely be used as components as articles include the following:

- Substances generally recognized as safe in or on food.
- Substances generally recognized as safe for their intended use in food packaging.
- Substances permitted for use by regulations in Parts 175, 176, 177, 178, 182, and 184.

**You should review this regulation to determine that your use of this product complies with the provisions of this regulation.**

**3M™ Condensation Management Films are manufactured in accordance with Quality Management System – ISO 9001:2008. The 3M™ manufacturing facilities for these products do not meet Good Manufacturing Processes for food processing, however guidelines as indicated by 21 CFR 174.5 (General provisions applicable to indirect food additives) are followed.**

---

**The products listed below are permitted for use in their application subject to the limitations in their corresponding section(s) listed in Table 1:**

**Condensation Management Film (natural)  
Condensation Management Film (red)  
Condensation Management Film (blue)**
