

Previously known as: Neptune[®]Kevlar[®]70-215

Cut

Heavy Duty

Superior mechanical protection and cut-resistance

- The 100% Dupont Kevlar[®] construction offers a very high cut resistance to weight ratio. The use of Terry loop technique enhances heat insulation. The resulting thicker-walled glove offers high shock absorption without losing dexterity
- Thanks to the Neptune[®] coating the glove fibres repel liquids, avoiding damage to the Kevlar[®] strands and extending glove life.
- The reinforced thumb welt increases abrasion resistance also adding to glove durability. The ambidextrous gloves are fully washable and can be re-used many times

Industries

- Automotive
- Machinery and Equipment

Applications

- Metalworking & assembly operations
- Chassis assembly, body trimming
- Seizing structural and body parts
- Inspection (picking, checking and marking)
- Touching up

HyFlex®

ADVANCED MECHANICAL PROTECTION

70-215

Medium duty cut resistant gloves

Previously known as: Neptune®Kevlar®70-215

Key Features

- 100% DuPont™ Kevlar® glove provides light-duty cut protection
- Protection from sharp edges of metals, ceramics, glass and other materials
- Reversible design allows glove to be worn on either hand, reducing replacement costs
- Launderable

Technologies

Kevlar®

Performance Standards & Regulatory Compliance

REACH Compliant
