Subject: Metal Detectable Bandages

To Whom It May Concern:

The table below provides additional technical information on metal detectable bandages distributed by Honeywell Life Sciences. Please note, however, that detect ability will vary due to equipment type and sensitivity, material density and moisture content.

**Metal Detectable Bandages
Dimensions and Weight Data On Aluminum Foil Laminate***

CAT. NO.	DESCRIPTION	FOIL (INCHES)			WEIGHT (GRAMS)
		THICK	WIDTH	LENGTH	
015059B	1" X 3" Blue Plastic	0.00025	0.50	1.0	0.0175
032182	Blue Plastic Fingertip	0.00025	0.25	3.0	0.0276

The aluminum foil laminate is purchased as "19 lbs basis weight Silver Slip Cigarette Liner".

NOTE: All values are typical.

Because of the thousands of metal detectors in existence, and the conditions in each application varies greatly, we cannot advise how to adjust individual metal detectors for any of the metal detectable bandages.
