# **DEPTACID ECM™**

## *Environment friendly Self-Foaming Acid Cleaner*

**DEPTACID ECM™** is an environment-friendly self-foaming acid. **DEPTACID ECM™** when used with a foaming device, provides excellent cleaning of surfaces such as walls, floors, equipment exteriors, and all of those difficult to reach places. **DEPTACID ECM™** is the product of choice to help reduce Phosphorus and BOD in the effluents.

---

### **BENEFITS & FEATURES:**

Excellent wetting properties to speed up cleaning of tough soils.  
Environment-friendly: NO PHOSPHORUS and very low BOD  
Rinses easily.

---

### **PROPERTIES:**

Appearance: Clear, colorless liquid  
Density: 10.34 lbs/gallon  
pH: 1.9 (1% in water)  
Odor: Mild, acidic

---

### **USAGE GUIDELINES:**

#### **FOR MANUAL CLEANING OPERATIONS:**

This product is designed for use with dairy or food processing equipment either as a manual acid cleaner or for use with a foamer system for the cleaning of dairy or food processing equipment and other hard surfaces.

Prepare a solution using 1 oz. (30 ml) of this product for each gallon (4 L) of warm water. Brush thoroughly and rinse with potable water.

#### **FOR FOAMING CLEANING OPERATIONS:**

Use with a foaming device at a concentration of approximately 1.5-2.0 % with water at room temperature. Let foam work for 5-10 minutes, then rinse thoroughly with potable water.

#### **NOTE:**

Do not use this product on galvanized or tinned copper surfaces. Use only on stainless steel, glass, and vitreous china.
