

PRODUCT INFORMATION

ULTRA 1000 (#1225)

PRODUCT DESCRIPTION

ULTRA 1000 is a premium, heavy duty, liquid alkaline detergent formulated expressly for use in cleaning heavily soiled equipment and pipelines and food-borne soils typically found in food processing plants. Formulated for use in pipelines, boil out, spray, soak and CIP operations where carbon, heavy burn-on, grease, oil, blood and fat must be removed.

ULTRA 1000 contains a blend of sodium hydroxide, hard water mineral sequestrants, wetting agents, rinse agents, alkaline builders and alkaline salts.

FEATURES AND BENEFITS

- Concentrated
- Chelated
- Highly Alkaline
- Contains Water Conditioners
- Economical to Use
- Minimizes Scale Formation
- Removes Carbonized and Organic Soils
- Rinses Freely
- Suitable for Circulation Cleaning

USES AND APPLICATIONS

ULTRA 1000 can be used in red meat and pork packing plants, poultry slaughter and further processing plants, dairies, cheese plants canning plants, and other food processing plants. Especially effective re-circulation in high temperature process units, boil out vats, cookers, kettles, parts washers, CIP line re-circulation and smokehouses.
