

PRODUCT INFORMATION

Item #S905137

Media Bottles, PET, Sterile, Greiner Bio-One

Supplier: GREINER BIO-ONE

These sterile PET media bottles are ideal for storage of media, buffers, and laboratory samples.

- » Clear polyethylene terephthalate construction
- » Sturdy and crack-resistant
- » Flexible
- » Free of RNase, DNase, and human DNA
- » Nonpyrogenic and noncytotoxic

The square design of the media bottles allows efficient use of storage space.

Clear polyethylene terephthalate (PET) construction makes content identification simple. The sturdy yet flexible crack-resistant bottles are supplied with white screw caps. All bottles are graduated to the working volume and supplied sterile.

Capacity	Brim capacity	Supplier No.	Unit
