Value of a Nelson-Jameson SupplyRITE Inventory Solution

- Capture **cost savings** and efficiencies through standardization, consolidation, and PO reduction.
- Boost **productivity** and streamline inventory processes.
- Create better **visibility** to usage information, reporting and tracking.
- **Reduce** product loss and downtime by having the products you need, when you need them.

Custom Inventory Solutions for Every Part of Your Facility!

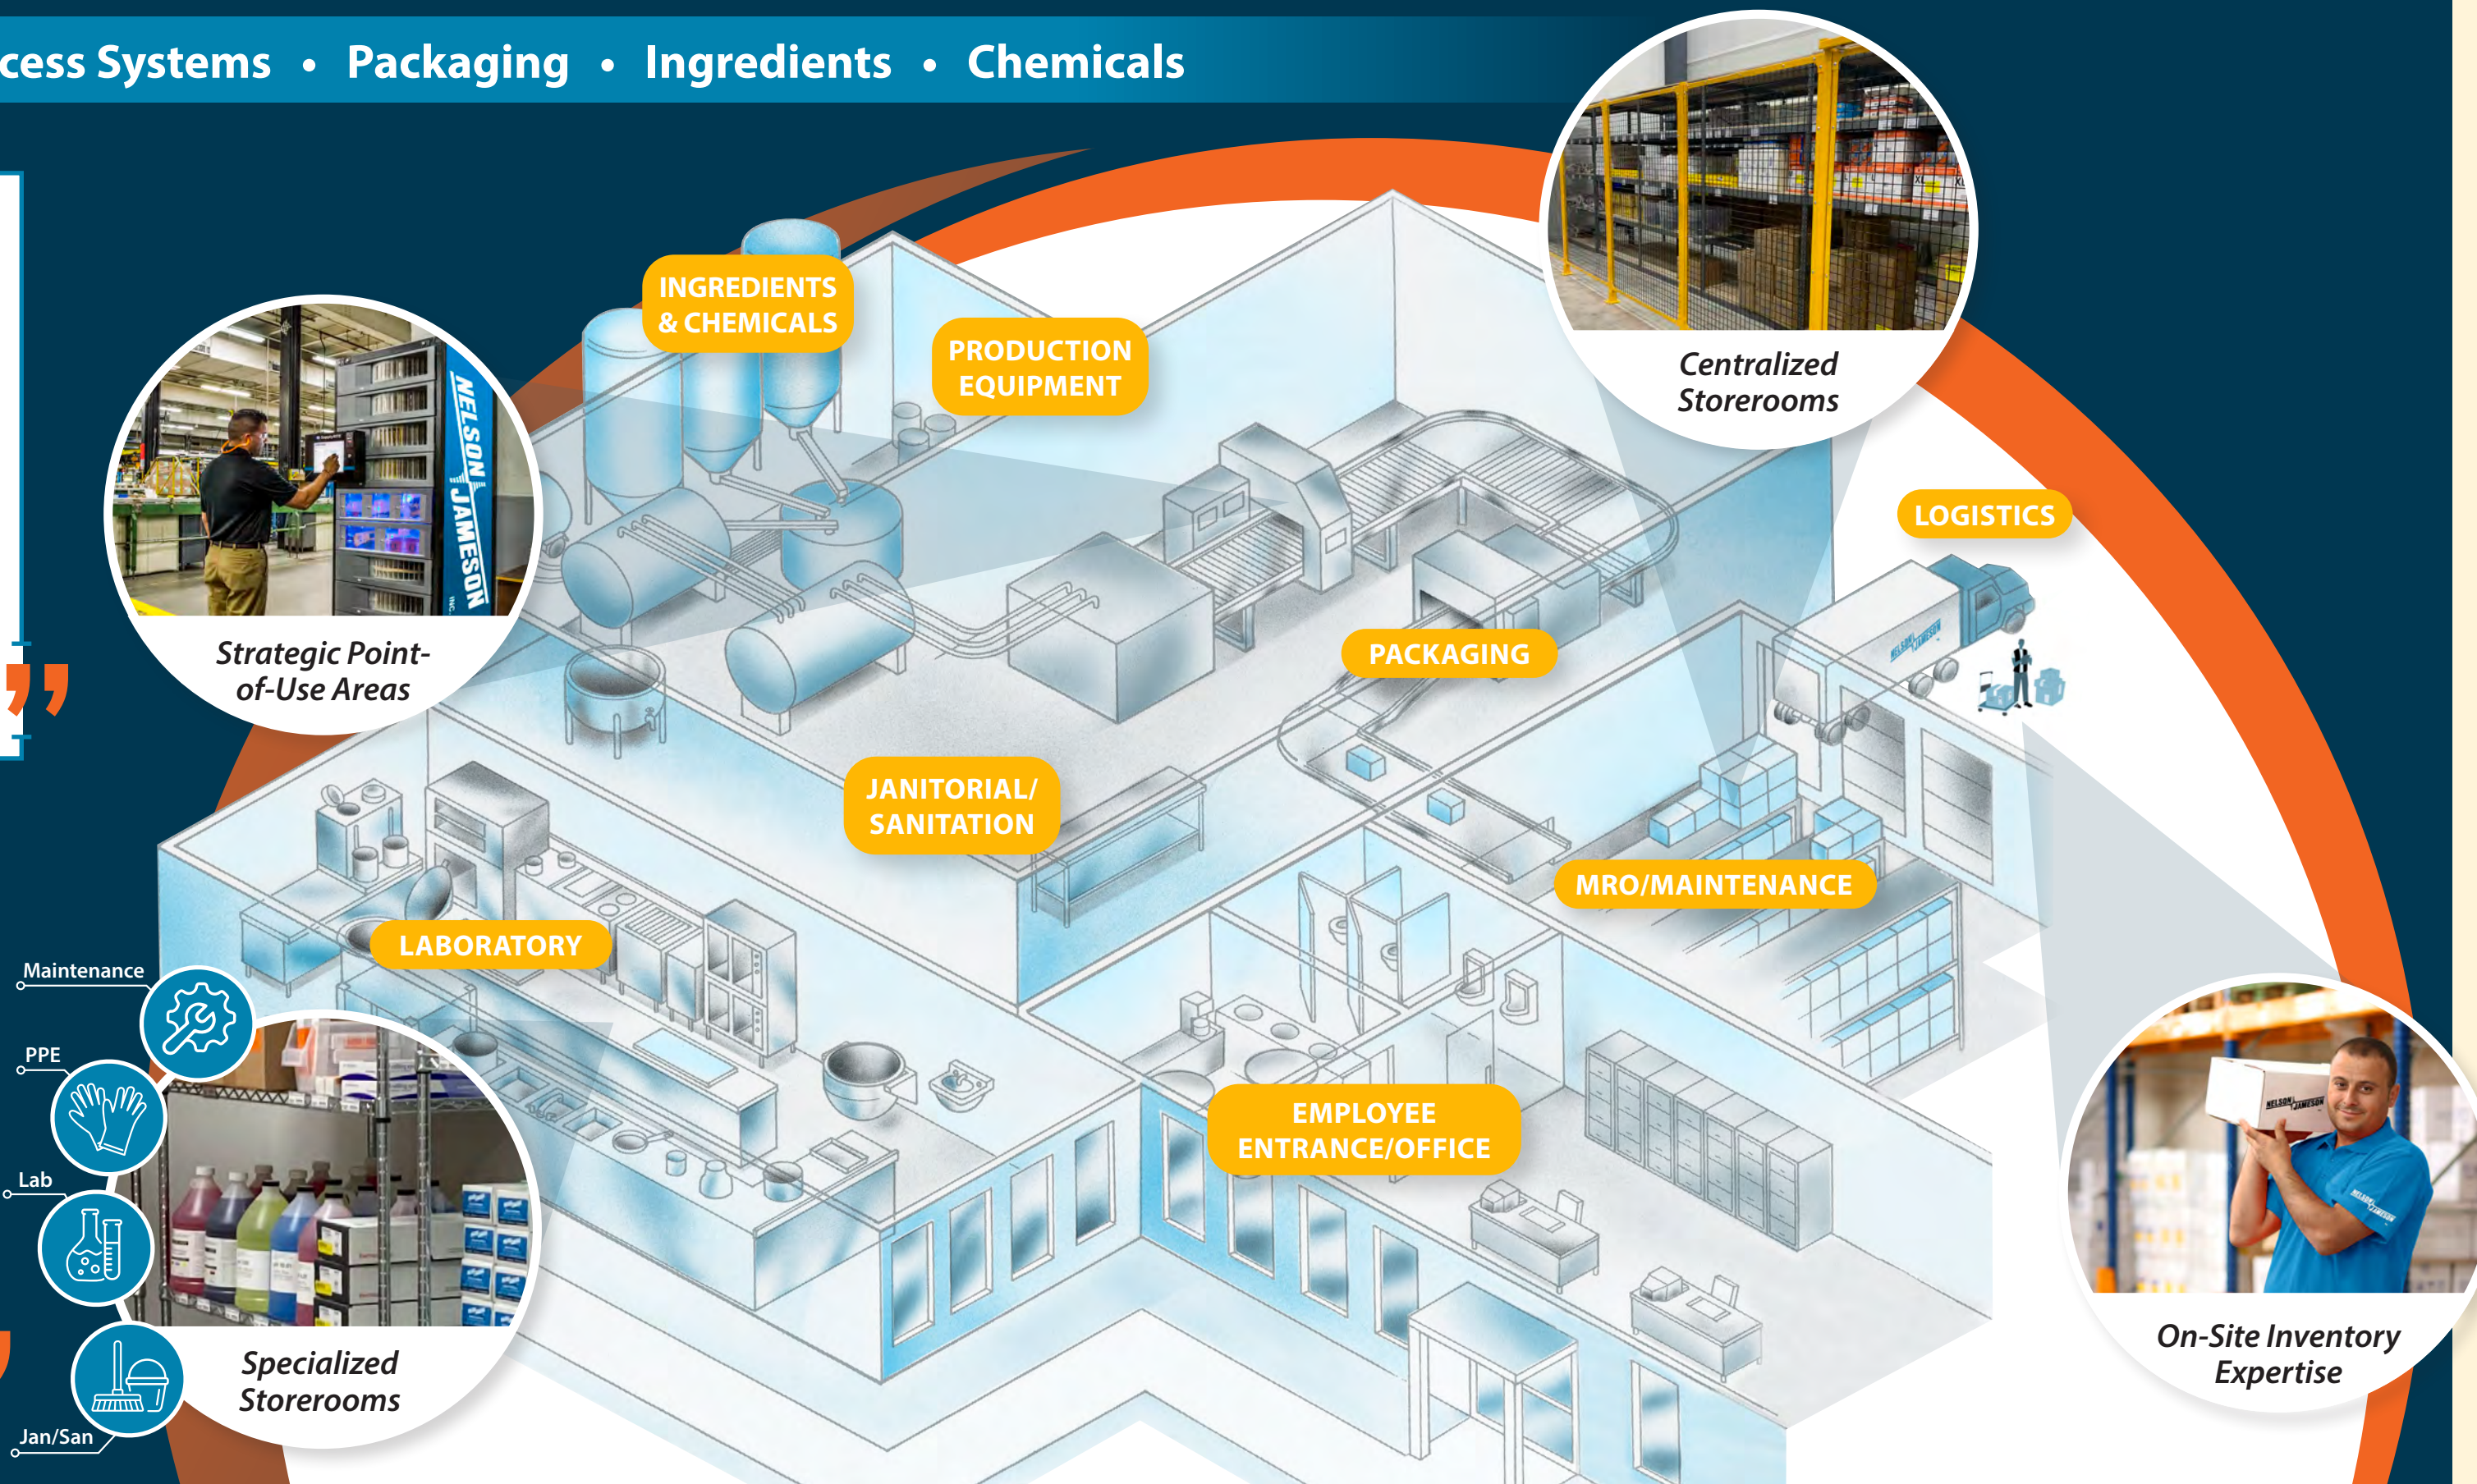

Laboratory • MRO • Process Systems • Packaging • Ingredients • Chemicals

★★★★★
 I have worked with Nelson-Jameson for many years and a key part of our relationship is the SupplyRITE Inventory Solutions. Our storage rooms were neatly organized and labeled which made it more efficient for all to grab the part/product they needed in the least amount of time. There are many things to worry about in managing day-to-day operations and the Nelson-Jameson team allowed us to focus more on plant activities and less on managing our inventory.

Adam M.
 - Former Plant Operations Manager -

★★★★★
 The Nelson-Jameson program created visibility and increased efficiency in our facility. The storeroom provided convenient and efficient organization for our day to day items, from maintenance items to janitorial supplies. The Nelson-Jameson team maintained the inventory which took the worry off our team and allowed us to focus on daily operations. I would highly recommend a Nelson-Jameson inventory solution to anyone.

Tally B.
 - Former Maintenance Planner -

Inventory Solutions Roadmap

- 1 DISCOVERY:**
 Understand current inventory practices and re-order processes, define facility needs or challenges and align program goals.
- 2 ASSESSMENT & PRODUCT INCLUSION:**
 Inventory and plant assessments are conducted by our inventory experts. Intentions are to define a list of included products, usage, critical item needs, point of use locations and more.
- 3 PROGRAM PROPOSAL & AGREEMENT:**
 Mutually agree to a custom inventory management program tailored to meet your unique facility needs.
- 4 IMPLEMENTATION & TRAINING:**
 SupplyRITE representative will complete installation, implementation, and training at your facility. We will establish sustainable replenishment and control practices to ensure your team can focus on their roles and benefit from the time and cost savings being provided.
- 5 CONTINUOUS IMPROVEMENT & ACTIVE REPORTING:**
 Nelson-Jameson SupplyRITE inventory experts will continue to evaluate your inventory solution to provide continuous improvement feedback and collaboratively work with you to ensure program success.
