AOAC Approved

AccuPoint® Advanced Next Generation
A Complete Sanitation Monitoring System
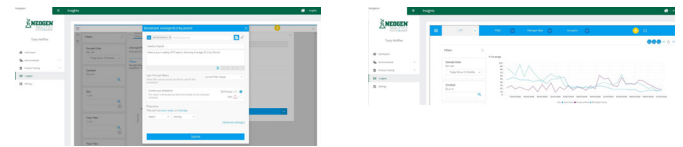

Has a New BFF — NEOGEN® Analytics Insights

NEOGEN® Analytics Insights is a cloud-based software program with powerful dashboards and automatic reporting features to take your program to the next level.

Features:
- Dashboards for all ATP results across multiple facilities
- Easy cloud-based access to data for offsite, remote employees, or corporate executives
- Color-coded dashboards for easy identification of trends, issues, or areas that need attention
- Benchmarking different users, facilities, areas in easy to interpret, and easily exported visualizations
- Broadcast feature — dashboards and reports can be customized for specific delivery times or thresholds
- Get visibility to trends and hotspots across all of your plants to inform how to optimize your ATP program

Benefits:
- Reduction of time in front of excel for food safety experts
- Insight into performance to a standard ATP testing
- Focus resources for improving and managing sanitation teams
- Let the data do the work for you instead of constantly looking for problems
- Create a system that asks for your attention only when needed
